Medical Advice

Avoid giving catecholamine drugs (such as epinephrine) due to possible cardiac disturbance. Treat symptomatically.

Section 5: Fire-Fighting Measures

Extinguishing Media	In case of fire: Use extinguishing media suitable for surrounding materials. Use water spray to cool containers.
Specific Hazards	Aerosols containers may erupt with force at temperatures above 50 °C [122 °F]. Produces irritating and toxic fumes in fires or in contact with hot surfaces. The vapors are heavier than air and may displace oxygen in low-lying areas creating a suffocation hazard.
Combustion Products	Produces carbon oxides (CO,CO ₂), halogenated compounds, and hydrogen fluorides.
Fire-Fighter	Wear self-contained breathing apparatus and full fire-fighting turn-out gear.

Section 6: Accidental Release Measures

Personal Protection	See personal protection recommendations in Section 8. For very large spills, wear self-contained breathing apparatus before approaching the spill. Wear cold-insulating clothing and gloves.
Precautions for Response	For aerosol can spills in confined or low lying space, leave the immediate spill area. If it can safely be done, extinguish open flames or remove high temperature sources to avoid producing toxic decomposition products.
Environmental Precautions	Not required under normal use.
Containment Methods	Not applicable
Cleaning Methods	For aerosol can spills at room temperature, the product turns gaseous and disperses in atmosphere. Ensure adequate ventilation, especially in low or enclosed areas.
Disposal Methods	Dispose of spill waste according to Section 13.

Section 7: Handling and Storage

Prevention	Keep out of reach of children. Avoid direct skin or eye contact with liquid or aerosol jet. Avoid breathing gas or spray. In cases of inadequate ventilation wear respiratory protection. Do not pierce or burn, even after use.
Handling	Wear cold-insulating gloves if exposure to liquid or aerosol jet is likely. Wear eye protection. HOLD CAN UPRIGHT to avoid ejection of liquid stream during use. Do NOT spray when container is more than 45 degrees off vertical or inverted.
Storage	Protect from sunlight. Do not expose to temperatures exceeding 50 °C [122 °F].

RECOMMENDATION: Ensure that glasses have side shields for lateral protection.

Skin Protection

If exposure to the jet or liquid is likely, wear cold-insulating gloves to protect the skin against frostbites.

Respiratory Protection

For extreme exposures, use self-contained breathing apparatus or supplied by air.

General Hygiene Considerations

Wash hands thoroughly with water and soap after handling.
